CEO Henrica Ginström:

Citycon's operational performance remained strong and in line with our expectations as total net rental income increased by 9.9% with comparable FX-rates and like-for-like net rental income by 5.9 % during the first half of the year. At the same time, we saw like-for-like sales growth of 2.6% compared to Q1–Q2/2023. It is notable that consumer spending across our centres has remained to be very robust reflecting the strength of our strategy to focus on everyday convenience with grocery and public service anchors. All our main retail segments continued to show strong sales growth.

Retail occupancy increased by 70 bps compared to Q2/2023, reaching 95.2% and reflecting the attractiveness of our locations. Collection rate remained high at 98% for Q1–Q2/2024 demonstrating again a full pass-through of indexations. Our tenants continue to benefit from increasing sales, and despite the higher rent levels, the occupancy cost ratio remains at a modest 9.4%. Strong operational performance is also supporting the development of the fair values of our properties. There were smaller upward yield revisions in a few of our prime assets, but these changes were more than offset by positive cash flow growth driven by rent indexations. We see a stabilization in the valuations in the market in general.

In the second quarter, we continued to take actions to strengthen our balance sheet. We extended our revolving credit facility and two term loans and executed an early redemption of our 2024 bond. These were important actions to improve our credit maturity profile and to secure a sufficient liquidity buffer for several years ahead. Most importantly, we successfully executed an exchange of our 2024 hybrid against a new hybrid and cash amount. This transaction underscores our commitment to maintaining an investment-grade credit rating and confirms Citycon's access to capital markets.

During the quarter, we also completed the divestment of Kongssenteret at a price close to book value. Furthermore, we are currently working on multiple transactions with three signed LOIs of which two are in advanced negotiations and one in early stages. Further strengthening our balance sheet remains a key priority for us and we are committed to our EUR 350 million divestment target by the end of this year.

Share of loss of joint ventures and associated companies totalled EUR -0.8 million (Q1-Q2/2023: EUR -22.0 million) mainly due to the completion of the transaction to acquire the remaining interest in Kista Galleria at the end of February after which Kista has no longer been treated as a joint venture.

5. Recycling of capital

In Q1/2024, Citycon completed the transaction to acquire the remaining interest in Kista Galleria in Stockholm, Sweden. Citycon has managed the centre since 2012 and before the transaction owned 50% of the asset. After the transaction, Citycon has 100% ownership. Kista Galleria had approximately SEK 2,400 million of debt and following the transaction Citycon assumed seller's share of existing debt (approximately SEK 1,200 million) and made a cash payment (approx. EUR 2.5 million). The new loan is secured by additional two assets located in Sweden.

In Q2/2024, Citycon completed the transaction to divest Kongssenteret in Kongsvinger, Norway.

Strengthening the balance sheet remains a key priority for the company. In November 2022, Citycon announced its goal to sell EUR 500 million of non-core assets in the next 24 months. Following the transaction executed in May 2024 the remaining target is EUR 350 million. Citycon is committed to execute the previously disclosed divestment target by the end of 2024 and in February 2024 increased its target to EUR 950 million over the next 24 months.

In February, Citycon Oyj successfully completed a directed share issue of 11.9 million new shares, raising gross proceeds of approximately EUR 48.2 million. The subscription price for the shares offered in the placing was EUR 4.05 per share and the issue was four times oversubscribed, supported by both core shareholders G City and Ilmarinen. The proceeds from the placing are aimed at strengthening the company's balance sheet and improving its capital structure in the current market environment.

Following the share issue, Citycon Group placed a EUR 300 million green bond in order to refinance its October 2024 bond maturity of EUR 310.3 million. The 5-year senior unsecured fixed rate EUR-denominated bond matures on 8 March 2029 and pays a fixed coupon of 6.500%. The demand for the bond was very strong with an orderbook approximately seven times oversubscribed. With this issue Citycon's debt maturity profile is significantly improved and refinancing risk is further reduced.

Simultaneously with the bond issue, Citycon launched a tender offer for its EUR 310.3 million outstanding notes due in October 2024. As a result, the company successfully tendered EUR 213.3 million of the 2024 notes at a discount below par.

In April, the company exercised its one-year extension option on the EUR 650 million credit facility, including a EUR 400 million syndicated committed credit facility and a EUR 250 million term loan. The new maturity date for the facility is in April 2027.

In May, Citycon renegotiated the SEK 2,060 million term loan that was acquired with Kista Galleria and extended its tenor to five years. The term loan is now maturing in May 2029. Extending Citycon's revolving credit facility and term loans were important actions to improve the company credit maturity profile and demonstrate Citycon's access to bank financing.

In June, the company finalised a hybrid exchange offer to holders of the outstanding EUR 292 million green capital securities (hybrid bond) that what was coming to call in November 2024. An aggregate principal amount of EUR 265,721,000 was accepted in the exchange offer and thereby exchanged into a new non-call 5.25 year hybrid bond with a 7.875% coupon. The company also offered a 4.75% cash compensation paid on the nominal amount accepted for exchange, amounting to EUR 12.6 million. With exchange acceptance by over 90% of holders the successful execution of the transaction confirms Citycon's access to capital markets and marks a significant milestone in securing the company stable credit profile.

In addition, Citycon redeemed the remaining outstanding EUR 97 million of the October 2024 bond using funds from the EUR 300 million bond issued in March. The bond was redeemed in a make-whole executed at par.

The Annual General Meeting authorized the Board of Directors to decide quarterly in its discretion on the distribution of equity repayment with an annual maximum total amount of EUR 0.30 per share. The annual maximum distribution was thereby reduced by EUR 0.20 per share compared to last year. The equity repayment paid in March and in June was mainly financed by operative cash flow.

Interest-bearing debt

The outstanding amount of interest-bearing debt increased during the year by EUR 192.1 million to EUR 2,032.5 million, mainly following the consolidation of Kista bank debt of EUR 206.3 million (amounting to EUR 181.4 million in Q2) into the group balance sheet in Q1. The carrying amount of interest-bearing liabilities in the balance sheet was EUR 2,049.8 million including IFRS 16 liabilities of EUR 35.7 million.

The weighted average loan maturity increased to 3.2 years over the quarter following the executed extensions of the syndicated term loan and the Kista term loan.

LTV (IFRS) decreased during the quarter to 47.6% mainly as a result of increased asset values.

² Including interest rate swaps, cross-currency swaps and interest rate options.

The direct net financial expenses (EPRA) Q1-Q2/2024 were EUR 9.6 million higher than last year, mainly following increased cost of debt by EUR 8.6 million from consolidation on Kista interest expenses starting from end of February, and from refinancing of the 2024 bond with a new Eurobond bearing a higher coupon.

Net financial expenses (IFRS) increased to EUR 46.4 million (Q1-Q2/2023: EUR 21.4 million). EUR 8.6 million increase relates to higher interest expenses on refinanced debt and consolidation on Kista interest expenses, which was partially offset by interest income on hedges. Furthermore, an amount of EUR 13.8 million indirect losses was booked related to fair value changes of cross-currency swaps not under hedge accounting, whereas the corresponding period Q1-Q2/2023 carried a EUR 1.3 million loss from fair value of swaps. In addition, EUR 1.1 million of gains related to redemption of debt was recorded, whereas the corresponding period recorded EUR 4.9 million of buy-back gains.

Financial income mainly consisted of interest income on a loan to Kista Galleria, gains on debt repurchased at a discount and interest income on cash balances held following the bond issue. The interest income on the shareholder loan to Kista Galleria ceased to be booked as external income as Kista was acquired and consolidated as a 100% subsidiary at the end of February 2024.

The period-end weighted average interest rate was 3.04%.

Financial risk management

Citycon uses interest rate swaps and caps to hedge the floating interest rate risk exposure. According to the company's treasury policy, the currency net transaction risk exposure with profit and loss impact is fully hedged through currency forwards and cross-currency swaps that convert EUR debt into SEK and NOK. During the quarter, the company also used currency forwards to hedge its SEK and NOK denominated equity.

The Nordic economies, like the rest of the global economy, are impacted by the increase in cost of living and the uncertain economic environment due to inflation, high interest rates, and geopolitical uncertainty. The common denominator for the Nordic countries is their strong financial position, thanks to high personal savings, strong public finances and robust job creation, which continue to persist. This provides these economies a buffer and some degree of resilience during this time of inflation, and rising interest rates.

While inflation is trending higher in all Nordic markets, this continues to benefit Citycon's operations due to the grocery and services-oriented tenant mix of Citycon's necessity-based urban hubs, which are less reliant on consumer discretionary spending. In addition, 94% of the Company's leases are tied to indexation.

10. Changes in corporate management

Henrica Ginström started as Citycon's CEO on April 1, 2024. Ginström replaced F. Scott Ball, who stepped down based on mutual agreement. Mr. Ball continues to serve as a board member of the company.

Sakari Järvelä started as Citycon's CFO on February 1, 2024. Bret D. McLeod, previous Chief Financial Officer of Citycon, announced in December 2023 his intention to resign from his position effective January 31, 2024, to pursue another opportunity back in his native United States.

In March 2024, Helen Metsvaht was appointed Citycon's new Chief Operating Officer and member of the Corporate Management Committee as of April 1, 2024. At the same time, Senior Vice President, Leasing, Jussi Vyyryläinen was appointed member of the Corporate Management Committee.

Kirsi Simola-Laaksonen, Citycon's Chief Information Officer and member of the Corporate Management Committee decided to leave the company to pursue new opportunities outside the company in February 2024.

11. Risks and uncertainties

The most significant near-term risks and uncertainties in Citycon's business operations are associated with the general development of the economy and consumer confidence in the Nordic countries and Estonia, and how this affects fair values, occupancy rates and rental levels of the shopping centres and, thereby, Citycon's financial results. Increased competition locally or from e-commerce might affect demand for retail premises, which could lead to lower rental levels or increased vacancy, especially outside capital city regions. Costs of development projects could increase due to rising construction costs or projects could be delayed due to unforeseeable challenges. Rising interest rates could also put pressure on investment yields, which could potentially impact fair values. The war in Ukraine continue to pose risks to economic health in Europe as well.

The main risks that can materially affect Citycon's business and financial results, along with the main risk management actions, are presented in detail on pages 34–35 in the Financial Statements 2023, in Note 3.5 A) as well as on Citycon's website in the Corporate Governance section.

2) EPRA NRV, NTA and NDV per share

The Best Practice Recommendations ('BPR') by The European Public Real Estate Association ('EPRA') include three measures of net asset value: EPRA Net Reinstatement Value (NRV), Net Tangible Assets (NTA), and Net Disposal Value (NDV).

Citycon considers EPRA NRV to be the most relevant measure for its business.

The EPRA NRV scenario, aims to represent the value required to rebuild the entity and assumes that no selling of assets takes place.

The EPRA NTA is focused on reflecting a company's tangible assets and assumes that entities buy and sell assets, thereby crystallising certain levels of unavoidable deferred tax liability.

EPRA NDV aims to represent the shareholders' value under an orderly sale of business, where deferred tax, financial instruments and certain other adjustments are calculated to the full extent of their liability, net of any resulting tax.

The tables below present calculation of the new EPRA net asset value measures NRV, NTA and NDV.

Net Asset Value per share	9.21	8.01	7.89	10.71	9.34	10.02	9.30	8.04	8.27

¹ When calculating the EPRA NDV in accordance with EPRA's recommendations, the shareholders' equity is adjusted using EPRA's guidelines so that bonds are valued based on secondary market prices. The difference between the secondary market price and the carrying value of the bonds was EUR 95.7 million (secondary market price lower) as of 30 June 2024. In the comparison period 30 June 2023, the difference was EUR 237.8 million (secondary market price lower).

² The real estate transfer tax adjustment in EPRA NRV calculation is based on the transfer tax cost for the buyer for share deal in Finland. Share deals are not subject to transfer tax in other group operating countries.

³ In the EPRA NTA formula, 50% of the deferred tax liability related to investment property fair value is added back, according to EPRA guidelines.

These alternative performance measures, such as EPRA performance measures and loan to value, are used to present the underlying business performance and to enhance comparability between financial periods. Alternative performance measures presented in this report should not be considered as a substitute for measures of performance in accordance with the IFRS.
