Citycon Q1: Solid quarterly results supported by good performance in Norway

JANUARY-MARCH 2016

- Gross rental income increased to EUR 63.3 million (Q1/2015: 46.1) mainly due to the acquisition of Norwegian shopping centre company Sektor Gruppen AS (Sektor) in July 2015. Gross rental income of Citycon's Norwegian operations amounted to EUR 20.7 million. The acquisition also increased net rental income by EUR 18.3 million.
- EPRA Earnings increased by EUR 8.7 million, or 32.1%, to EUR 36.0 million especially due to the acquisition of the Norwegian operations. EPRA Earnings per share (basic) decreased slightly to EUR 0.040 (0.043) due to the substantially higher number of shares.
- Earnings per share (basic) was EUR 0.06 (0.04). The increase was mainly a result of higher fair value gains.
- The outlook remained unchanged.

CEO, MARCEL KOKKEEL:

The results for Q1 show a good start to 2016. The implementation of our diversified Nordic strategy paid off with the Norwegian and Swedish portfolio showing strong performance and balancing out the weaker retail environment in Finland. The quality of our Norwegian portfolio could be seen in its solid net rental income growth as well as strong valuation uplift. Overall, Citycon's like-for-like net rental income growth, including Norway and Kista Galleria, showed growth of 0.6%. EPRA Earnings per share was close to last year's level, whilst the average number of shares was 40% higher than in Q1/2015.

In 2016, our focus will remain on operational improvement and capitalizing on the synergies of a larger Citycon. We will also continue to upgrade the quality of our portfolio via asset rotation and (re)developments. The pre-leasing of the first phase of Iso Omena (re)development has reached over 90% and we look forward to the opening in August when the 28,000 sq.m. extension will come online. The grand opening of the 100,000 sq.m. shopping centre will follow in May 2017. The (re)developments and committed property acquisitions, totalling EUR 450 million, will begin contributing to earnings starting from Q3/2016. As a result, we expect rental income and earnings to pick up in 2017.

1. NET RENTAL INCOME GROWTH THROUGH THE ACQUISITION OF NORWEGIAN OPERATIONS

Citycon's net rental income increased by 38.9% and was EUR 55.2 million (39.8). The increase was mainly attributable to the acquisition of Norwegian operations, which contributed to Citycon's net rental income growth by EUR 18.3 million. This was offsetting the impact of divestments of non-core assets, which lowered net rental income by EUR 2.9 million. On the contrary, on-going and completed (re)development projects increased net rental income by a total of EUR 0.4 million.

For the like-for-like portfolio, gross rental income decreased by EUR -0.6 million, or -2.0%, and net rental income decreased respectively by EUR -0.7 million, or -2.4%. Like-for-like property operating expenses were 2.0% lower than previous year, the decrease deriving from strict cost management. However, the like-for-like net rental income of -2.4% does not present Citycon's complete business operations, as like-for-like properties accounted for only 49% of total portfolio at period end. The Norwegian operations, Kista Galleria as well as shopping centres under (re)development (including e.g. Citycon's two largest shopping centres in Finland) are not included in the like-for-like portfolio. The like-for-like net rental income growth including the like-for-like performance for the Norwegian operations and Kista Galleria was 0.6%.

Citycon's net rental income from Finnish operations decreased by 7.4% compared to the previous year and totalled EUR 21.7 million (23.5). This was mainly a result of divestments of non-core assets in 2015 which lowered net rental income by EUR 2.0 million. In addition, net rental income for the like-for-like portfolio decreased by EUR -0.4 million, or -2.6%, mainly due to the challenging retail environment in Finland. On the contrary, on-going and completed (re)development projects (e.g. IsoKirstiina) increased net rental income by EUR 0.5 million.

Citycon's Norwegian operations contributed to the result in Q1/2016 by a gross rental income of EUR 20.7 million and net rental income of EUR 18.3 million, in line with our expectations. All the Norwegian properties are included in the acquisition portfolio until held by Citycon throughout two full reporting periods.

The company's net rental income from Swedish operations decreased by 8.9% to EUR 8.7 million (9.6) mainly due to divestments executed in 2015. For the like-for-like portfolio, net rental income increased by EUR 0.2 million, or 2.3% mainly due to new and renegotiated lease agreements especially in Liljeholmstorget Galleria.

Net rental income from the Baltics and Denmark operations decreased compared to previous year by 4.8% and came to EUR 6.4 million (6.7). This was mainly due to the decrease of EUR -0.5 million, or -8.1% in like-for-like properties, which resulted from the increased competition. In addition, the divestment of non-core shopping centre Magistral at the beginning of 2016 reduced net rental income by EUR 0.1 million.

LIKE-FOR-LIKE NET RENTAL INCOME GROWTH

2. OCCUPANCY REMAINED HIGH DESPITE OF CHALLENGING RENTAL MARKET IN FINLAND

The economic occupancy rate for Citycon's property portfolio decreased by 60 bps during the first quarter of the year. The decrease was mostly due to quarterly variations, the challenging retail environment in Finland and increased competition in certain locations outside of the Helsinki metropolitan area.

Total sales in Citycon's shopping centres increased by 2% and footfall remained at the level of the previous year. The increase in sales was due to completed (re)development projects and positive sales development in like-for-like shopping centres. The total sales in Norway remained at the same level as previous year while footfall decreased by 5% due to the timing of Easter holidays.

At period-end, Citycon had a total of 4,121 (4,214) leases, of which the average remaining length was 3.2 (3.3) years.

The average rent per sq.m. decreased to EUR 22.1 (22.3) mostly due to the weaker Norwegian krone. Quarterly variations, the challenging retail environment in Finland and increased competition in Estonia resulted in decreased year-to-date leasing spread of -11.6% for renewals and re-lettings. The negative leasing spread during the quarter was mainly caused by one large renewal in a non-core property in Finland outside Helsinki metropolitan area and the spread does not fully reflect the overall leasing situation.

3. ACQUISITION OF NORWEGIAN OPERATIONS SUPPORTED EPRA EARNINGS GROWTH

Administrative expenses totalled to EUR 7.5 million (5.5). The increase of EUR 2.0 million was mainly driven by the acquisition of the Norwegian operations. For standing assets the increase in administrative expenses mainly related to higher depreciation resulting from recent IT investments including lease management system upgrade. At the end of March, Citycon Group employed a total of 318 (156) persons, of whom 85 worked in Finland, 163 in Norway, 57 in Sweden, 9 in Estonia, 3 in the Netherlands and 1 in Denmark.

Operating profit came to EUR 74.3 million (35.7), being higher than in the previous year due to the higher fair value gains and the acquisition of the Norwegian operations.

Net financial expenses increased year-on-year by EUR 4.3 million to EUR 13.5 million (9.2), despite a lower average interest rate, due to the acquisition of the Norwegian operations resulting clearly higher debt level.

Share of profit of joint ventures totalled EUR 4.0 million (3.5). The increase came mainly from the fair value gain on the Iso Omena extension project, which is partially conducted in a joint venture.

Profit for the period came to EUR 57.8 million (26.7). The increase was mainly a result of higher fair value gains.

4. POSITIVE FAIR VALUE GAINS DRIVEN BY NORWAY

The fair value of investment properties decreased by EUR 12.5 million to EUR 4,079.1 million (31 December 2015: 4,091.6) as a property portfolio in Finland of EUR 70.0 million was moved to investment properties held for sale. Investments increased the value of properties by EUR 31.5 million, while the divestment of shopping centre Magistral decreased the value by EUR 24.0 million. Changes in exchange rates increased value of properties by EUR 23.8 million.

5. CONTINUED DIVESTMENTS OF NON-CORE ASSETS

During the quarter, Citycon continued its divestment strategy by selling the non-core shopping centre Magistral in Tallinn, Estonia, for EUR 24 million.

Since the publication of its strategy update in July 2011, the company has divested 44 non-core properties and four residential portfolios for a total value of more than EUR 275 million. Citycon aims to divest an additional EUR 250–300 million of non-core assets, mainly in Finland and Norway, within the coming 1–2 years.

Citycon has defined other retail properties (supermarkets and shops) as non-core properties and intends to divest these properties within the next few years.

6. (RE)DEVELOPMENT PROJECTS PROGRESSED – PRE-LEASING OF ISO OMENA DEVELOPED POSITIVELY

At the end of the reporting period, the company had two major (re)development projects underway: the extension and (re)development of Iso Omena in Espoo and the Mölndal Galleria project in Gothenburg.

The estimated investment for the Iso Omena extension project, including partial (re)development of the existing shopping centre, totals approximately EUR 250 million. The first phase (part A) of the project, covering a EUR 120 million investment, is carried out in partnership with NCC. Citycon will purchase NCC's share at completion. The pre-leasing for the first phase, to be opened in August 2016, increased to 92% during the period.

The tenant demand for the new Mölndal Galleria shopping centre has been strong and pre-leasing is at 50%. Citycon will purchase joint venture partner NCC's 50% share after the project is completed.

In addition to the (re)development projects listed below Citycon has several ongoing refurbishments in e.g. Myyrmanni, Stovner Senter, Kilden Senter and Kongssenteret.

Further information on the company's completed, ongoing and planned (re)developments can be found in the Annual and Sustainability Report 2015.

8. SHAREHOLDERS' EQUITY

Equity per share increased to EUR 2.56 (31 December 2015: 2.52), mainly due to profit for the period and a translation gain of EUR 13.9 million. On the other hand, dividends and equity return of EUR 33.4 million decreased equity per share.

At period-end, **shareholders' equity** attributable to parent company's shareholders was EUR 2,280.4 million (1,591.3). This figure increased from the end of 2015 (2,245.5) by EUR 34.9 million due to the above mentioned reasons.

9. FINANCING

To strengthen the balance sheet and financial position, to reduce the cost of debt and to extend debt maturities Citycon completed several financing actions last year, most of them related to the acquisition of the Norwegian operations, including the refinancing of Sektor debt. During Q1 no major new financing transactions were entered into.

**FINANCIAL EXPENSES**

The year-to-date net financial expenses increased by EUR 4.3 million compared to the corresponding period last year to EUR 13.5 million (9.2) despite a lower average interest rate, due to the acquisition of the Norwegian operations and the resulting higher debt level. The financial expenses for Q1 include EUR 0.6 million of indirect financial expenses relating to fair value revaluations of the cross-currency swaps which are not under IFRS hedge accounting. The financial income mainly consists of the interest income on the loan to Kista Galleria.

The period-end weighted average interest rate decreased year-on-year as a result of several debt refinancing transactions last year at lower margins and also due to even lower market interest rates.

FINANCIAL RISK MANAGEMENT

Citycon uses interest rate swaps to hedge the floating interest rate risk exposure. According to the treasury policy, the currency transaction risk exposure with profit and loss impact is fully hedged through currency forwards and cross-currency swaps that convert EUR debt into SEK and NOK debt.

10. BUSINESS ENVIRONMENT

The macroeconomic environment in Citycon's operating countries remained stable during the first quarter of 2016. Citycon's operating countries are nevertheless currently on diverging macroeconomic courses: the business environment in Norway, Sweden, Estonia and Denmark remains strong or relatively strong, while the Finnish economy is still dragging behind other countries.

In 2016, the European Commission forecasts Euro area GDP growth to reach 1.7%. Sweden and Estonia are showing stronger growth figures than the Euro area average and Denmark is in line with the Euro area forecast while the GDP growth for Finland is almost stagnated and is expected to remain relatively modest for a sixth year in a row. Finland's GDP growth is dependent on domestic demand, structural reforms and recovery of the country's stagnating export markets. Norway's GDP is expected to grow slightly below Euro area average due to the recent slowdown in the oil industry, but stable growth in exports and public consumption will support economic growth in the country.

The unemployment rates in all Citycon's operating countries remain below the Euro area average (10.3%). In the beginning of the year 2016 consumer confidence levels have stayed stable in Citycon's operating countries. The consumer confidence levels in Finland, Sweden and Denmark remain positive, while the consumer confidence in Norway, Estonia and on average in Euro area is still slightly negative. (Source: Eurostat) Consumer prices have remained almost unchanged compared to the previous year in all Citycon's operating countries apart from Norway where the prices have increased. Retail sales growth for the first two months of 2016 has been strong in Estonia, Norway and Sweden, positive in Denmark, but still slightly negative in Finland. (Source: Statistics Finland/Norway/Sweden/Estonia/Denmark)

In Finland the weak outlook for retail sales limits the rental growth potential and prime rents are forecasted to remain unchanged in 2016. Also in Norway, rents are expected to stay unchanged. In Sweden, prime shopping centre rents are forecasted to increase 2–3% during 2016. In Estonia, downwards pressure on rents has increased due to intensifying competition and new supply. (Source: JLL)

In Finland, the high activity in the investment market has continued and the transaction volume doubled in the first quarter of 2016 compared to the previous quarter. The demand for prime properties remains strong and the demand for secondary properties has increased. In Norway the transaction volume for 2016 might see a slight decrease due to stricter requirement for equity by Norwegian banks. In Sweden the transaction volume in the first quarter of 2016 was relatively low, however, the market remains attractive and supply is still limited which changes investors' risk-taking to more opportunistic investment strategies. Prime shopping centre yields have moved in during the last year. Also yields for secondary shopping centres have decreased due to easier finance availability, investors' willingness to take on more risk and the lack of prime property investments. In Estonia, prime yields are perceived edging close to their lows in the cycle. However, yield compression is still expected to continue as real estate investment market remains attractive in the low interest rate environment. (Source: JLL)

11. SUSTAINABILITY

Citycon's strategy is to be among the forerunners in sustainable shopping centre management and Citycon has set ambitious targets that extend to 2020. Citycon was honoured with the Green Star status in the GRESB (Global Real Estate Sustainability Benchmark) again in 2015.

Citycon has launched an extensive project to introduce BREEAM In-Use certificates for its shopping centres. 66% of Citycon's shopping centres, measured by value, have acquired the certification by end of March.

Citycon's sustainability strategy, targets and measures are described in detail in the Annual and Sustainability Report 2015.

12. RISKS

The company's core risks and uncertainties, along with its main risk management actions and principles, are described in detail in the Annual and Sustainability Report 2015 and in the Financial Statements 2015.

Citycon's Board of Directors believes there have been no material changes to the key risk areas outlined in the Annual and Sustainability Report 2015. The main risks are associated with property values, leasing, development projects, operations, environment and people and the availability and cost of financing.
